

12th INTERNATIONAL CONFERENCE ON LEGUME GENETICS & GENOMICS

December 13-17, 2026 | Hilton Orlando

<https://pwd.aa.ufl.edu/iclgg/>

The International Conference on Legume Genetics and Genomics (ICLGG) series was established in 2002 to bring together researchers working on fundamental and applied aspects of legume genetics and genomics, to help realize the combined potential of these disciplines for the benefit of people and the planet. The ICLGG has become the preeminent international conference on legume sciences, bringing together up to 400 researchers and agri-food representatives to discuss advances in the science and application of genetics and genomics of legumes.
